

KUATO

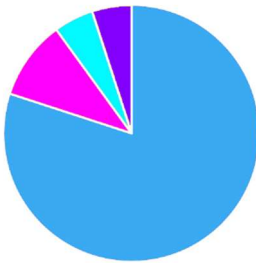

Memecoin on Injective

Whitepaper

Overview

Kuato is an innovative memecoin launched as a CW20 (CosmWasm) token on the Injective Blockchain, designed to provide utility and engagement within a growing ecosystem. With a fully released total supply of 900,000,000 tokens, Kuato will power various platforms and initiatives, including an exciting Neon Arcade Gaming Platform, a free NFT generator, and numerous reward programs for token and NFT holders. The token's use cases extend across gaming, NFTs, and community-driven events, positioning Kuato as a key asset for future developments in the Kuato ecosystem.

Tokenomics

- **Total Token Supply:** 900,000,000 KUATO
- **Liquidity Mining:** 720,000,000 KUATO (80% of the total supply)
- **Airdrops & Rewards:** 90,000,000 KUATO (10% of the total supply)
- **Marketing:** 45,000,000 KUATO (5% of the total supply)
- **Development:** 45,000,000 KUATO (5% of the total supply)

Token Distribution

1. **Liquidity Mining (80%):**
The majority of the Kuato tokens will be allocated for liquidity mining purposes. This large supply ensures that users who participate in the liquidity pools on the Injective blockchain have ample opportunity to earn tokens by contributing to the ecosystem's liquidity.
2. **Airdrops & Rewards (10%):**
A portion of the tokens will be reserved for airdrops and rewards, to incentivize community growth, user engagement, and the adoption of Kuato across multiple platforms. These tokens will be distributed to early adopters, NFT collectors, and other community members participating in our ecosystem events.
3. **Marketing (5%):**
To support the growth and visibility of the Kuato platform, 45 million tokens will be allocated to marketing efforts. This includes partnerships, promotions, influencer campaigns, and other strategies to raise awareness about the Kuato Memecoin.
4. **Development (5%):**
The remaining 45 million tokens will be used to fund ongoing development and the enhancement of Kuato's ecosystem, ensuring the platform remains cutting-edge and continues to offer new features, tools, and experiences to users.

Ecosystem and Use Cases for the Kuato Token

1. Neon Arcade

The Kuato token will serve as the primary currency within our upcoming "Neon Arcade" game. This game will offer a thrilling experience to players, integrating the unique aspects of the Kuato memecoin. Players will use Kuato tokens to unlock in-game assets, purchase power-ups, and access exclusive levels or special content.

As part of the game's growth, players who hold and stake Kuato tokens will receive rewards, such as limited edition NFTs or unique in-game items that can enhance their gameplay experience. Additionally, the game will feature competitive leaderboards, with top players receiving Kuato tokens as rewards.

2. NFT Generator and Kuatools

Kuato will feature a **free NFT generator** that allows users to create unique metadata for NFTs on platforms like Stargaze, Omniflix, and other NFT marketplaces. Kuato token holders will receive early access to this tool, giving them the ability to mint NFTs, generate metadata, and create NFTs more easily. Special "Kuatools" will be available to users who hold Kuato tokens, offering advanced features and customization options for NFT creators.

The NFT generator will help expand the ecosystem by enabling users to participate in the booming NFT space, directly benefiting from Kuato's technological infrastructure.

3. Early Access and Community Engagement

Kuato tokens will be used to access a variety of exclusive events, quests, and leaderboard battles. These events will provide users with rewards such as airdropped tokens and limited edition NFTs.

Quest Mechanism: Holders of Kuato tokens will be able to engage in special quests where they can earn tokens and NFTs by completing specific challenges or participating in events.

Leaderboards and Rewards: The platform will feature regular leaderboard battles, where top players will be rewarded with tokens based on their performance in Kuato's games and other activities.

4. Airdrops and Rewards Eligibility

Holding Kuato tokens will make users eligible for various **airdrops** of tokens and NFTs. This will include both Kuato's internal ecosystem assets and collaborations with other projects within the Injective Blockchain and broader Web3 space.

Rewards Program: Kuato token holders can participate in regular reward programs, where they will earn additional Kuato tokens or NFTs based on their activity and contribution to the Kuato ecosystem.
